Work & Leadership Experience

January 2022 - Present

Writing Tutor – *The Writing Center, Long Island University*

- Assisted approximately 10 students per week in one-hour sessions on writing work including grammar, planning, sentence structure, word processor computer skills, and citation styles
- Worked on a team with 7 other writing tutors and 1 supervisor, consistently meeting to discuss ways to improve and better help students
- Visited English classes at the request of professors presented with other tutors on the help the Writing Center provides
- Worked with other tutors to construct and organize short documents that synthesize and concisely present information on a writing skill or writing style to hand out to students during sessions

September 2021 - Present

Editor of School Newspaper – *The Tide, Long Island University*

- Worked on a team with 4 other editors and one supervisor, meeting regularly to discuss methods to improve the newspaper
- Wrote stories for the newspaper after researching information and conducting interviews
- Edited stories submitted by writers: provided meaningful feedback on their writing, checked that they adhere to AP Style, and fact-checked the information they provide
- Researched current events and compiled a list of leads to present and assign to writers at weekly newspaper meetings
- Used Adobe InDesign to structure, design, and layout newspaper content before sending to printing company at bi-weekly layout meetings with other editors
